

Certificate of Conformity
D.L.S. Electronic Systems

Company: HD Electric Company
Product Tested: Dual Display Voltmeter
Model Tested: DDVM-40* (The * indicates various models, kits and accessories)
Testing Date: February 8, 9 and 29, 2016
Report Numbers: 21743-21744

A sample of the equipment as configured in the accompanying test report has been found to comply with the following standards:

EN 61326-1:2013
ELECTRICAL EQUIPMENT FOR MEASUREMENT, CONTROL AND LABORATORY USE;
EMC REQUIREMENTS - Part 1: General Requirements
(IEC 61326-1:2012) - Industrial Locations
USING IEC PUBLICATION 61000 and CISPR 11:2009, A1:2010

Sections Evaluated:

Electrostatic Discharge Immunity Test
Electric Field Radiated Immunity Test
Magnetic Field Immunity Test
Radiated Emissions Test

PERFORMANCE MONITORED:

Monitored voltage readings in both displays. Voltage display remained stable in the long term and within $120 \pm .0051$.

Summary:

Immunity The Dual Display Voltmeter, Model DDVM-40, met the requirements of EN 61326-1 Electrical Equipment for Measurement, Control and Laboratory Use; EMC Requirements (IEC 61326-1) for Industrial Locations using the test procedures IEC 61000-4-2, IEC 61000-4-3, and IEC 61000-4-8

Emissions: The Dual Display Voltmeter, Model DDVM- met the radio interference radiated emission requirements of EN 61326-1:2006 Electrical Equipment for Measurement, Control and Laboratory Use. The product represented in this test report is battery operated and has no provisions for connection, either directly or indirectly, to the AC mains power supply.

Furthermore, the manufacturer may declare that the product is in conformity with the above sections of EN 61326-1:2013.
